

LEADING SOUTH-EAST ESSEX ACCOUNTANCY FIRM TO MOVE INTO FORMER EVENING ECHO BUILDING

MWS, one of Southend's leading Chartered Accountants have been established as a provider of a range of business and accountancy services for individuals and businesses across South East Essex for more than 50 years.

Their main office has been established in Westcliff for a number of years, and in mid-2023 second office was opened in Leigh-on-Sea as part of the organisation's expansion plans.

As the business looks to continue its growth over the medium-term, the Partners have taken the bold decision to move to a new purpose-built office further west along the A127 corridor.

Clive Smith, Managing Partner, comments on the proposed move.

'There were many factors that contributed to our decision to relocate from our Westcliff Office – a decision that has not been taken lightly, given our history and connection with the City of Southend. However, we believe that this is an extremely positive development for our organisation, offering a modern, convenient and secure environment for our employees and our clients, as well as an MWS location which more closely reflects our business and brand. In addition, the new premises will facilitate MWS being able to operate a more environmentally friendly office estate, contributing to our efforts to reduce our carbon footprint. We will maintain our office in Leigh-on-Sea and continue to provide a two site location for clients.'

About MWS

MWS was established in 1971. Today our firm consists of five partners, supported by highly experienced accountancy teams. What this brings to our clients is a deep understanding of specific issues and challenges and the resource to be able to resolve them.

We serve not only personal and business clients in the Essex community but we also look after businesses in London and other parts of the UK.

Whilst MWS are a firm of general practitioners, the partners each bring with them a diversity of experience and knowledge meaning that we have the depth to specialise in numerous sectors, including:

Construction; Education; Food & Catering; Healthcare; Financial Services; Legal & Professional; Manufacturing; Printing; Retail
